The MessagePad 130 personal digital assistant (PDA) makes your information as mobile as you are. It makes your information easy to communicate and easy to view. The MessagePad 130 runs the award-winning Newton 2.0 operating system, and features user-controllable backlighting for on-demand use and a nonglare screen that works in any lighting condition.

With its additional system memory, the MessagePad 130 offers improved performance with communications solutions such as Internet Protocol (IP) applications and wireless LANs, as well as improved multitasking support. It has a built-in notepad, to-do list, datebook, telephone log, and address file for organizing personal and business affairs, as well as Pocket Quicken (U.S. only) to help organize personal and business expenses.

You can enter information in many ways: as digital ink, printed text, hand-drawn graphics, or with an on-screen keyboard. Improved recognition software quickly transforms your handwriting into typed text. There's even an optional external keyboard.

Pen-based navigation and data entry make finding information easy and fast. The MessagePad 130 can receive wireless messages and alphanumeric pages, and can send and receive faxes and electronic mail.

It also lets you exchange information with either Mac OS- or Windows-based computers using the included Newton Backup Utility, or optional Newton Connection Utilities and Newton Press software.

Your MessagePad 130 can also be customized with software applications that put critical information at your fingertips, no matter where you are.

Features

 Built-in organization functions
• Helps you plan monthly, weekly, and daily activities using the calendar, and manage priorities using the To Do List
• Allows free-form notes, outlines, lists, and phone logs
• Includes customizable name and address files for colleagues and friends, using various business-card formats
• Offers an assortment of information and productivity tools such as time-zone maps, a calculator, and currency exchange
• Includes Pocket Quicken (U.S. only), which puts current information about your cash, checking, savings, and credit-card accounts at your fingertips

 Built-in communications
• Actively assists you in making phone calls, faxing, printing, finding information, and sending and receiving electronic mail
• Uses an optional wired or wireless modem to send and receive faxes and electronic mail
• Prints formatted letters and notes using Apple printers or serial or parallel printers with the optional Print Pack
• Lets you beam notes, messages, packages, schedules, and business cards via built-in infrared communications
• Backs up all data onto your personal computer and installs software on your MessagePad 130 using the included Newton Backup Utility

 Expandable functions
• Using the optional Newton Connection Utilities, lets you import and export information from your Mac OS- or Windows-based computer, and backs up and synchronizes files with your computer
• Works with PC cards and serial peripherals such as keyboards, modems, pagers, and wireless communications and storage products
• Offers a large selection of productivity, finance, time and billing, information management, reference, electronic document publishing, and entertainment software.
MessagePad 130 with Newton 2.0 Operating System

Technical Specifications

Newton Intelligence
Newton Recognition Architecture
- Recognizes handwriting—printed, cursive, or a mixture of the two—with the assistance of a 93,000-word, built-in word list
- Lets you add up to 1,000 words
- Includes four pop-up keyboards: typewriter, numeric, phone, and time/date
- Recognizes graphics and symmetrical objects

Newton Information Architecture
- Object-oriented database stores, finds, and links information and provides a flexible view of this data
- Newton Toolkit lets you easily create custom applications using its flexible graphical toolbox
- Architecture lets you easily share data across applications

Newton Communications Architecture
- Provides built-in support for serial communications, PC card modems, sending and receiving faxes, and electronic mail
- Provides a single interface for modular, object-oriented communications services
- Provides improved performance with Internet communications applications and multitasking support
- Supports new communications capabilities through its modular design
- Supports Class II Fax

Intelligent Assistance Architecture
- Helps users complete repetitive tasks in multiple categories, including communications, scheduling, finding, and reminding functions
- Contains smart defaults to reduce complexity
- Works in and between applications
- Supports third-party extensions

MessagePad Hardware Architecture
- ARM 610 RISC processor at 20 MHz
- Apple custom system ASIC
- Low-power, transflective LCD display with EL backlight (320 by 240 pixels) 3.8 in. by 2.8 in. (9.6 cm by 7.2 cm)
- Nonglare writing surface
- Telescoping pen
- Built-in fast charger for optional NiCd Battery Pack
- Lithium cell: DL2032 (3 V nominal)
- Power source: four AA alkaline batteries (included), optional power adapter, and optional NiCd Rechargeable Battery Pack

Communications capabilities
- Prints using a variety of serial, parallel, and network printers
- Receives and stores wireless messages using optional messaging cards
- Communicates via e-mail or taps into on-line services and the Internet with optional wired or wireless modem cards and software
- Provides faxing with optional fax modem (automatic cover-page generation, post-formating)
- Beams notes, name cards, appointments, and packages at up to 38.4 Kbits/sec within 3.28 ft. (1 m) using high-speed infrared technology
- Automatically dials phone calls with assistance from intelligent auto-dialing (DTMF or modem dialing)*
- Connects to cellular or GSM phones for wireless data and fax communications

Size and weight
- Length: 8.0 in. (20.32 cm)
- Width: 4.0 in. (10.16 cm)
- Height: 1.2 in. (2.9 cm)
- Weight: 1.0 lb. (0.45 kg) without batteries

Operating environment
- Temperature: 32° to 104° F (0° to 40° C)
- Storage temperature: –4° to 117° F (–20° to 47° C)
- Transit temperature: –4° to 149° F (–20° to 65° C) for up to 72 hours
- Relative humidity: 20% to 90% noncondensing

Power requirements
- Power adapter
  — Universal, 100 to 240 V AC, 50/60 Hz
  — Four plug configurations: U.S., U.K., Europe, and Australia
- Battery type: AA (LR6) alkaline or NiCd Battery Pack
- Lithium cell: DL2032 (3 V nominal)
- Built-in fast charger for optional NiCd Battery Pack
- Power source: four AA alkaline batteries (included), optional power adapter, and optional NiCd Rechargeable Battery Pack

Computer connectivity requirements
- Works with PC-compatible computers with 68030 or later processors running Windows version 3.0 or later
- Works with Mac OS-based computers with 68030 or later processors and system software version 7.1 or later

Printer support
- Offers built-in printer support for Apple LaserWriter Plus (and other PostScript-equipped LaserWriter printers), Personal LaserWriter LS, and Personal LaserWriter 300, as well as StyleWriter I and II printers
- Works with most popular PC printers, including the Hewlett-Packard LaserJet II DeskJet 500, Canon BubbleJet 10e, and Epson LO and FX, using the optional Newton Print Pack

Fax machine support
- Supports Group 3 and Class II Fax machines

*This service may not be available in all countries.

Ordering Information

MessagePad 130 2.5MB
Order No. H0188LL/A
- MessagePad 130 personal digital assistant with Newton 2.0 operating system
- Telescoping Pen
- Batteries
- Newton Backup Utility software for Mac OS– and Windows–based computers
- Serial cables for Mac OS– and Windows–based computers
- Pocket QuickIn software (U.S. only)
- Complete setup, learning, and reference documentation
- Limited warranty

Accessories
- The MessagePad 130 with Newton 2.0 operating system is compatible with most accessories available for the MessagePad 110 and MessagePad 120 with Newton 1.x or 2.0 operating system. Please see the MessagePad Accessories data sheet for detailed information.

Product specifications are subject to change. Check with your Apple reseller for the most current information about product specifications and configurations.
